Keywords — Software Engineering, Bioinformatics, Signal Processing, Machine Learning, Deep Learning, Natural Language Processing

EDUCATION

PhD Candidate in Bioinformatics - University of British Columbia 2021 - Present

- 1 first-author publication, 4 paper collaborations

MSc in Computer Engineering (AI) - University of Isfahan 2019 - 2021

- Thesis: Deep Reinforcement Learning for Training Intelligent Agents in Natural Language Environments
- GPA: 18.42/20
- 1 first-author publication

BSc in Computer Engineering (Software) - University of Isfahan 2015 - 2019

- Thesis: Predicting Persian Twitter Users' MBTI Personality Using Text Mining Methods
- GPA: 18.25/20 (highest in cohort)
- Attended ICPC West Asia Regionals 2016 and 2017
- Competed in Robocup IranOpen 2D Soccer Simulation League 2017
- Finalist at the National Computer Engineering Olympiad 2019

EXPERIENCE

Graduate Research Assistant - BC Cancer's Genome Sciences Centre 2021 - Present

- Member of the Bioinformatics Technology Lab (birollab.ca)
- Developed tools in C++ and Python for genomics analysis
- Used machine learning and deep learning for assembly polishing and nanopore signal analysis

Backend Developer and System Administrator - University of Isfahan 2018 - 2021

- Lead developer of the University of Isfahan's Alumni Social Website
- Deployed and maintained as a Django app on a Linux server with nginx and uwsgi

Teaching Assistant - University of Isfahan 2016 - 2020

- Fundamentals of Computer Programming (C++) and Advanced Programming (Java/C++)
- Data Structures and Algorithm Design
- Artificial Intelligence (developed a game environment for evaluating final projects)
- Technical English for Computer Engineering

VOLUNTARY AND EXTRACURRICULAR WORK

Volunteer Organizer - Vancouver Bioinformatics User Group (vanbug.org) 2023 - Present

- Responsible for promoting monthly bioinformatics seminars by local and international speakers

ACM Students Chapter Member - University of Isfahan 2017 - 2019

- Coached 2 university teams at ICPC West Asia Regionals 2020
- Instructed Python and Django courses
- Assisted in technical setup for high school and undergraduate programming contests and AI challenges
